

THE BUSINESS OF CATERING

We make your catering needs our business

A QUICK AND SHORT NEWS LETTER

We have been a bit quiet lately due to a brilliant contract for a crane ship from Italy in Cape Towns dry dock. The ship had to have their kitchen fixed and so closed it down for renovations and [The Business of Catering](#) was chosen to feed their 150 very hard working and hungry crew members. So we had to erect a mock restaurant and kitchen on the dry docks to feed the crew members 24hrs a day as there were two shifts.

Working 24hrs a day, Mark on day shift and I on night shift it was a very tiring but rewarding event for both ourselves, our staff and the ship as we all enjoyed the experience and the friends we made. An experience we now have and will never forget.

In the time during our contract for the ship and after we have been "building" a new kitchen as the kitchen we had has gotten too small. We have finally received all our certificates to be able to trade from our new kitchen and we are all very excited to be doing so.

Our kitchen is now situated in Bergvliet but our postal address and telephone numbers stay exactly the same as before. We still service the whole of the western cape so please don't hesitate to contact us.

Our website is at this very moment being updated to be more user friendly and to show you all our experience and functions that we have done in the past. So please go and have a look in a few days time. Your feed back is greatly welcomed. www.thebusinessofcatering.co.za

Mark, the staff and I hope that you are all doing well and hope to be of service to you in the near future.

kind regards
Lee-Ann and Mark
